Detection Type: Mark **N** (new) for the first detection of an individual YBCU, for each subsequent detection of that same YBCU mark an **R** (repeat) instead

How detected: A: aural, V: visual, B: both A+V. **Distance Accuracy**: **1**: known ybcu location/measured, **2**: est/measured, **3**: est ≤25 m, **4**: est ≤50 m, **5**: est ≤100 m, **6**: complete guess
